

Waterlogic Infiniti UV

An unlimited supply of fresh water always on tap.

The Waterlogic Infiniti UV delivers an endless and refreshing choice of hot and cold water. It features multi-stage filtration and ultraviolet light sanitization to reduce bacterial growth and prevent potential biofilm buildup. The business friendly design and guaranteed reliability ensure you have all the quality cold and hot water your employees and guests need.

The Perfect Water Solution

The Infiniti UV has three core technologies

Filtration

Our filtration technology is really good at taking the bad stuff out and leaving the good stuff in. This stage removes chlorine and other waterborne tastes and odors.*

In-tank UV

An in-tank ultraviolet light reduces bacterial growth to guarantee fresh clean water.

BioCote® Antimicrobial Protection

Antimicrobial technology that is proven to be effective against a wide range of microbes such as odor causing and staining bacteria, mold and fungus. BioCote reduces microbes by up to 99.99%

Good for the Earth

Waterlogic coolers have been shown to reduce carbon footprint by up to 72% compared to bottled water coolers*. Bottleless water coolers reduce plastic bottle contribution to landfills.

The Waterlogic Infiniti UV is ENERGY STAR certified.
